WASHINGTON, Feb. 13.—The  
senate foreign relations com-  
mittee today formally approved  
President Roosevelt's lease-lend  
bill, thus clearing the way for  
the senate to begin debate on  
the measure Monday.  
The vote was 15 to 8.WASHINGTON, Feb. 13.—The  
Senate foreign relations  
committee prepared to  
vote a favorable report on a  
modified lease-lend bill to-  
day as Majority Leader  
Barkley predicted passage  
by more than a two to one  
vote, probably by March 1.Rejecting major amendments pro-  
posed by Republican Leader Wen-  
dell L. Willkie, the committee also  
flatly turned down specific  
proposals of Republicans adopting  
a middle of the road policy of aiding  
England.This action came as it was learned  
that President Roosevelt had as-  
sured Democratic and Republican  
congressional leaders recently that  
he intended to take care adequately  
of American interests.

## President's Plans

The president's plans, it is under-  
stood, call for assurances from the  
British government that, in case of  
German invasion and seizure of  
England, British warships would not  
fall into German hands, but would  
sail for America.Some 74 old U. S. destroyers and  
ten light cruisers would be made  
available for a trade with Britain  
for heavy warships such as the  
giant new battleship King George V.  
In such a trade, British delivery  
might not be made until after the

MADRID, Feb. 13.—Firm conviction  
that Spain will decline to aban-

well-informed circles in Madrid to-

nence to the conference between  
Generalissimo Francisco Franco

Italian Riviera.The articles were read with great  
interest. There was no editorial  
comment.The general impression was that  
Franco, far from seeking to involve  
this nation in conflict, is interested  
primarily in finding some remedy  
for Spain's acute problems of food,  
transport, unemployment and re-  
construction.The Falangist organ Arriba last  
Christmas expressed the general  
feelings of the people by saying:  
"Spain is now rising little by little,  
with pains and tears, from its recent

International News Service Staff  
CorrespondentLONDON, Feb. 13.—Pos-  
sibility that Japan suddenly  
may intervene in the war on  
the side of Germany and  
Italy was frankly admitted  
by authoritative British  
quarters today.Informed circles in Lon-  
don said that Japanese For-  
eign Minister Yosuke Ma-  
tsuoka's speeches, both pub-  
lic and private, have been  
getting "tougher" during  
the past three or four days.  
They added there is every  
sign that Japanese extrem-  
ists are gradually taking  
charge of Tokyo government  
policies.They added that the British gov-

surprised to find Japan entering the  
war.

## "Utmost Gravity"

Editor's Note: In Australia the  
government, after a meeting of the  
advisory war council, issued a warn-  
ing that the war has entered a "new  
phase, one of utmost gravity."Meantime, the British government  
is making every effort to leave Japan  
in no doubt of Britain's intentions  
should Japan leap into the fray.In what was believed to have  
preceded similar action by the  
United States, British Ambassador  
Sir Robert Craigie has been in-  
structed to remind Japan of the fate  
which has overtaken Italy, Ru-  
mania and other states which "per-  
mitted themselves to be enveloped  
in the German war orbit."British quarters expressed hope  
that "sane and liberal" Japanese  
influences may yet prevail to pre-  
vent actual Japanese intervention  
in the war. But it was admitted  
that, in the British view, such hopes  
now are little more than wishful  
thinking in view of the increasing  
ascendancy of the Japanese war  
party.For this reason both the British  
and Dutch are taking every possible  
precautionary measure to protect  
their vital interests in the Far East,  
while Singapore and other key  
points are fully alert and prepared  
for any eventuality.

# New Conference On Sewing Projects

## Seek To Solve State "Impasse"

Governor And Committee To Confer On Basis For Continuation

FEBRUARY 14 DATE FOR FINAL ACTION

(International News Service)  
HARRISBURG, Feb. 13.—A legislative committee will confer with Gov. Arthur H. James today in a "final attempt" to solve the impasse which threatens to close down 250 W. P. A. sewing projects in the state.

Rep. William A. Shaw, (D) Allegheny, chairman of a House committee which has been seeking a solution to the State-W. P. A. deadlock, said the governor would be asked to accept a W. P. A. request for increased state funds.

"If he doesn't, the sewing project will close," Shaw flatly stated.

**February 19 Limit**  
The 12,000 jobless women employed on the projects will be dismissed as of midnight, February 19, unless the governor's approval is forthcoming today, Shaw added. The projects were originally scheduled to close on January 27, unless additional state funds were made available, the time being extended later to February 17 and then February 19.

Under the plan submitted by State W. P. A. Administrator Philip Mathews as his "last proposal," the W. P. A. would agree to credit the state in the future with any money paid in excess of the 25 per cent sponsorship share required by law on W. P. A. projects approved as of January 1, 1940.

The state is now paying \$2.50 per woman a month towards the upkeep of the projects. The federal government and some municipalities are paying the remainder. Governor James has stated that he considers this amount sufficient on the grounds that the state has "overpaid" its 25 per cent share on other W. P. A. projects.

"The state is lucky to be able to get away with paying only \$10," commented Shaw. "Otherwise the state will have to expend thousands of dollars additional when these people go on relief."

## REPORT GERMANY SEEKING TO FORCE PEACE ON GREECE

of British forces and abandonment by the British of naval and air bases on the island of Crete.

4. Germany will guarantee Greece against further Italian attacks.

By moving troops across Bulgaria, Germany could put herself in position to move against Greece in force if the Athens government fails to come to terms.

According to information in London, only Russian objections are holding the Germans back from a full-scale invasion of Bulgaria, but it appeared that eventually both Germany and Russia may move into Bulgaria, partitioning it as they partitioned Poland.

### May Be 600,000 In Rumania

It was impossible to obtain in London any exact figure of the number of German troops now in Rumania. The London Daily Express said it was believed as many as 600,000 Nazi troops are massed there, ready to enter Bulgaria. The paper added that some quarters predicted these Nazi legions would move this week-end, and that Rumania is considering evacuating civilians from Danube river ports in anticipation of fighting.

Other London newspapers estimated the figure at 400,000 troops.

(Editor's Note: A Budapest dispatch said anti-aircraft batteries had been installed atop important buildings in Bucharest, the Rumanian capital, and that all Rumanians had been ordered to remain indoors.)

Turkey was reported taking a lively interest in Balkan affairs, particularly in view of her promises to fight if Bulgaria is invaded.

The London Daily Mail, in an Istanbul dispatch, quoted a Turkish spokesman as stating:

### May Not Wait

"Turkey might not wait to be invaded. She might move before the enemy reached her gates. Secret Bulgarian cooperation with the Nazis cannot frighten Turkey.

"Turkish leaders have long foreseen all possible eventualities and have taken all possible precautions. Turkey has a million trained men, ready and waiting behind the steel forces, which do not constitute all of Turkey's armed might, are ready to crush Nazi invaders or their accomplices who attempt to interfere with Turkish freedom or security.

"Any treachery by Bulgaria which is likely to set the Balkans ablaze will cost Bulgaria her very existence."

### Would Be Mediator

BERLIN, Feb. 13.—A suggestion that Germany would be willing to act as mediator in a peace settlement between Italy and Greece was voiced in the Wilhelmstrasse this afternoon.

Relations between Greece and Germany remain unchanged despite the Albanian conflict, a spokesman said. Therefore, he indicated, any possibility of settling the Italo-Greek conflict by peaceful means would not be overlooked.

As regards other matters, the spokesman was non-committal. He would say nothing regarding the Bordighera conference between Generalissimo Francisco Franco and Premier Mussolini or the present diplomatic negotiations between Germany and Yugoslavia.

The unwritten part of the labor law is an amendment consisting of the two words, "except Ford."

letter to the Mutual Company, "that just recently the federal communications commission reprimanded a station in Boston for editorializing the news. In checking up on your commentators, I find that on the war issue particularly they have been not only editorializing, but in many instances propagandizing."

"I would like very much to have you send me a copy of the script of your commentators during the past year. Complaints of propaganda by the radio, by some of the newspapers, by many columnists and the motion picture industry have become so numerous that official notice must be taken of them."

### Want Equal Time

Wheeler said that when the communications act was passed an effort was made to write in an amendment which would have required all broadcast chains and stations to give equal time to both sides of every public question.

"While the originating station of the chains have generally given equal time to individual speakers on the more important public issues, I question whether or not their affiliates have done so, and sponsored news commentators on the chain have been quite one-sided on the great issue that is pending before the country at the present time, the lease-lend bill, and the question of our own neutrality."

Wheeler said that the public should be fully and impartially advised on such questions as "dictatorial powers" for the president and the question of peace or war.

"The only way that Hitler, or Stalin or Mussolini are able to keep their people in subjection is because of controlled press, radio, and motion pictures."

economic conference in 1933 although it might have spared the world its present war.

### Calls For Speedy Aid

Willkie's calls for speedy and effective aid to Great Britain drew prolonged applause and cheers and at the end of his brief address the old campaign cry of "We Want Willkie" rang out in the ballroom. Nominally the head of the GOP, Willkie took a bold stand in his extemporaneous address against Republican congressional leaders who oppose the administration's lease-lend bill which Willkie has endorsed.

### Commends Churchill

Willkie touched lightly on his recent visit to England. He described Winston Churchill as in his opinion "the greatest public figure in the world."

"The Republican party," he pointed out, "was founded 'to preserve freedom.'"

"That was the reason for our coming into being and if we will but remember that we cannot fail," he declared. "But, if we become like the Whig party, merely the party of negation, merely the party of opposition merely those who find fault and who in one of the critical moments of history find nothing nobler to do than compromise, this great party will pass from the scene."

"Pleading with its followers to recognize that the fate of this country is inextricably wound up with that of Great Britain, Willkie flung out to his party this fervent challenge:

"Have we the vision, have we the ability, have we the leadership to take America down this glorious path that is offered to us? I have no doubt that we have."

## NEW CASTLE ARTILLERYMEN TRAIN AT CAMP SHELBY

(Continued From Page One)

numbers crowding the confines of the meeting place, standing at attention while the solace of the communal organ music weaves the power of worship. Hymns sung from all male voices resound with this sincerity which on paper is so difficult to explain or describe.

During the program, an brief address of interest was made by Colonel Samuel B. Wolfe, commanding officer of the 190th Field Artillery. This day being the initial meeting of the entire regiment, of which the New Castle Batteries are units, we felt inspiration from our commander's advice and lesson.

Although because of the pressure of the time element, during this process of organizing the operation of the 190th Field Artillery Regiment since our arrival here last Monday, February 3, the requirements of accommodating 900 men left very little time for we members of the service batteries to devote to our personal obligations, thus new recruits, these columns has been somewhat slow. But it will be all work as the organizational routine become definitely effective.

### Battery Boxing Team

Plans are about completed by the two New Castle batteries for the formation of a battery boxing team. So far the following men are putting their science of the gentlemanly sport of fistfists. From the firing battery, Sergeant Ben Nestor is expected to handle the light-heavyweight division, with Sergeant Pollock the heavy honors. Sergeant Rod Edwards is training for the lightweight corner. Private Connors is slated for the 128 pound division and Private McVay will contest in the 135 matches. The latter soldiers are representatives from the service battery. These boys are being coached by Sergeant Fred Welker, who has copied many fighting honors while in naval service.

The New Castle outfits having issued a challenge to Battery E of Clearfield, Pa., and a tentative date has been set for the near future.

Looking around at the shadow-boxing and rope-skipping activities here, it would be gross understatement to say these fellows were considering as their boxing team honors goal, the regimental and then the best in the entire brigade. After that there's not much room left at the top with the exception of fighting their way to army recognition. And there are three armies, with a lot of men, in the land forces of our defenses.

So with the signal that commands the respect of every man in the army, we thirty this communiqué from this likeable Mississippi post. The warm sunshine of the light hours develop into a cool sleep-inducing night, the time reaches 11 o'clock (Central Standard Time) and from unit to unit the meditating intonation of taps echoes from bugle to bugle. As one finishes, the other begins, at first far at a distance, then closer and closer, hence fading the distance carrying with each note our dreams of our families at home.

## Splendid Cough Remedy Easily Mixed at Home

It's So Easy! Makes a Big Saving. No Cooking.

To get quick and satisfying relief from coughs due to colds, mix your own remedy at home. Once tried, you'll never be without it in your home, and it's so simple and easy.

First, make a syrup by stirring 2 cups granulated sugar and one cup of water a few moments, until dissolved. A child could do it. No cooking needed. Then get 2 1/2 ounces of Pinex from any drugstore. This is a compound containing Norway Pine and palatable guaiacol, in concentrated form, well-known for its prompt action on throat and bronchial membranes.

Put the Pinex into a pint bottle, and add your syrup. Thus you make a full pint of really splendid medicine and you get about four times as much for your money. It never spoils, and children love its pleasant taste.

And for quick, blessed relief, it is amazing. You can feel it take hold in a way that means business. It loosens the phlegm, soothes the irritated membranes, and eases the soreness. Thus it makes breathing easy, and lets you get restful sleep. Just try it, and if not pleased, your money will be refunded.

## Two Resignations Given To School Board Last Night

Other Routine Matters Before  
Members Of Board At  
Regular Session

Two resignations were received by the New Castle school board Wednesday night, February 12, when the regular monthly session was held in the administration building on East street. Miss Anna Cox, a veteran of many years in the New Castle school system, resigned as a teacher in the Rose avenue school, due to retirement. Miss Kathryn Boston, a clerk in the senior high school, resigned due to accepting a position with the city.

Dr. Ralph Hamilton and Peter Cardella headed a group of citizens from the seventh ward who asked for the use of the Mahoning school for naturalization classes. The board replied that it has turned over the Aiken school and the Lawrence school for WPA purposes and that it might be possible for the group to get permission from the county commissioners to use rooms in the Lawrence school for the classes.

Dr. W. Fulton Jackson reported that the Men's Garden committee had agreed to plant trees on the Highland school playgrounds but that the trees would be planted in spots that would not interfere with the playground activities.

The athletic council asked that a wall be built inside the wire fence surrounding the stadium on the Division street side. Boys have been digging holes under the fence and crawling through at football games. Building and Ground Superintendent S. G. Ligo was asked to prepare an estimate of the cost.

A request was received from the Community Concert band for the use of the senior high school auditorium on March 31 for a concert.

## The Great Game Of Politics

(Continued From Page Four)

Senator Byrnes. Without him the Administration defeats in the past four years would have been more and worse: its victories, practically zero. The thought of having to depend on Mr. Barkley without Mr. Byrnes causes genuine apprehension among those around the President who know the facts. Some think it would be little, short of disastrous. They insist the President would be extremely unwise to thus cripple himself in the Senate. He would, they say, deeply regret it before the year was over.

THOSE who feel this way have evolved a plan for the President which they think would satisfactorily solve the problem. This is simple enough. All he has to do, they say, is name Senator Barkley to the court and thus make way for Senator Byrnes to become the Senate leader in name as well as in fact. This probably would delight Senator Barkley, would satisfy, it is asserted, Senator Byrnes and not lengthen Mr. Jackson's wait at all. To the objection that Senator Barkley knows little law and would make a poor judge, his New Deal advocates say: What of it? They already have a majority of the court. Senator Barkley would merely make another rubber-stamp justice. Just as he has made a rubber-stamp leader, and his selection is the way out of a difficulty for the President.

AS presented by its proponents, the Barkley suggestion seems plausible, but there are several reasons for not accepting it too seriously. One is that it may not suit Senator Byrnes at all. He is no longer young. He is reported to be growing tired of the Senate and to really want the dignity and repose of the highest court as the climax of his long public career. Another is that Mr. Roosevelt may consult Mr. Justice Frankfurter on this, as he does on a good many other things—the Ambassadorship to England, for example—and he may find that Mr. Frankfurter has other ideas.

ALTOGETHER, it is a rather complicated state of affairs. In the end the Left Wing New Dealers may prevail again, as they have so often done in the past. That would mean Mr. Jackson, and that ought to mean the elevation of the able Solicitor General, Mr. Francis Biddle, to the Attorney Generalship. That would be the logical appointment and it would be regarded as sure but for the fact that here, too, a dark horse looms up. It is understood that Mr. Paul V. McNutt, of Indiana, is ambitious to be Attorney General. Whenever Mr. McNutt develops an ambition—which is not infrequently—he does something about it. He may not achieve his ambition, but it cannot be said that he does not try.

## GARDNER

Carol Donley has recovered from a recent attack of measles.

Mr. and Mrs. Charles Brown, of New Castle, are visiting with their daughters, Mrs. Floyd Critchlow and Mrs. William Donley.

Rita Jean Spate, who has been ill for the past week with the flu, is improved.

Mr. and Mrs. Norman Walker and family have returned to their home in Arlington, Va., after visiting with relatives here.

Mr. and Mrs. Emil Hille and son, of New Castle, were Wednesday dinner guests of friends here.

Mr. and Mrs. Harry Brunton, Vera Rigby, and Mr. and Mrs. William Allsopp of McKeesport, spent Sunday with A. W. Kline and George Brunton of Wampum.

Mr. and Mrs. Henry Budzowski and family, Mike and George Debelak, motored to Cleveland, Sunday, where they visited with Mrs. Joseph Zelezak.

**HELD FOR COURT**  
GROVE CITY, Feb. 13.—Warren V. McNeish, 19, driver of a car involved in an accident in which Mrs. Samuel Kelly of this city was killed, near Memorial Park on December 13, was held for the March term of court to face charges of involuntary manslaughter, at a hearing before Squire O. E. Irwin here.

The charges were preferred by the State Motor police, after a coroner's jury had found negligence on McNeish's part.

**after a cold  
then what**

DOCTORS stress remaining in bed until the body temperature is normal. Sound advice.  
You know how weak you feel after a cold. Colds play havoc in weakening the body. The story is well told in the blood picture. It is important to build back body strength right away to carry the load of work, worries, and loss of sleep. A weakened body may be more susceptible to relapse or long drawn out recovery.

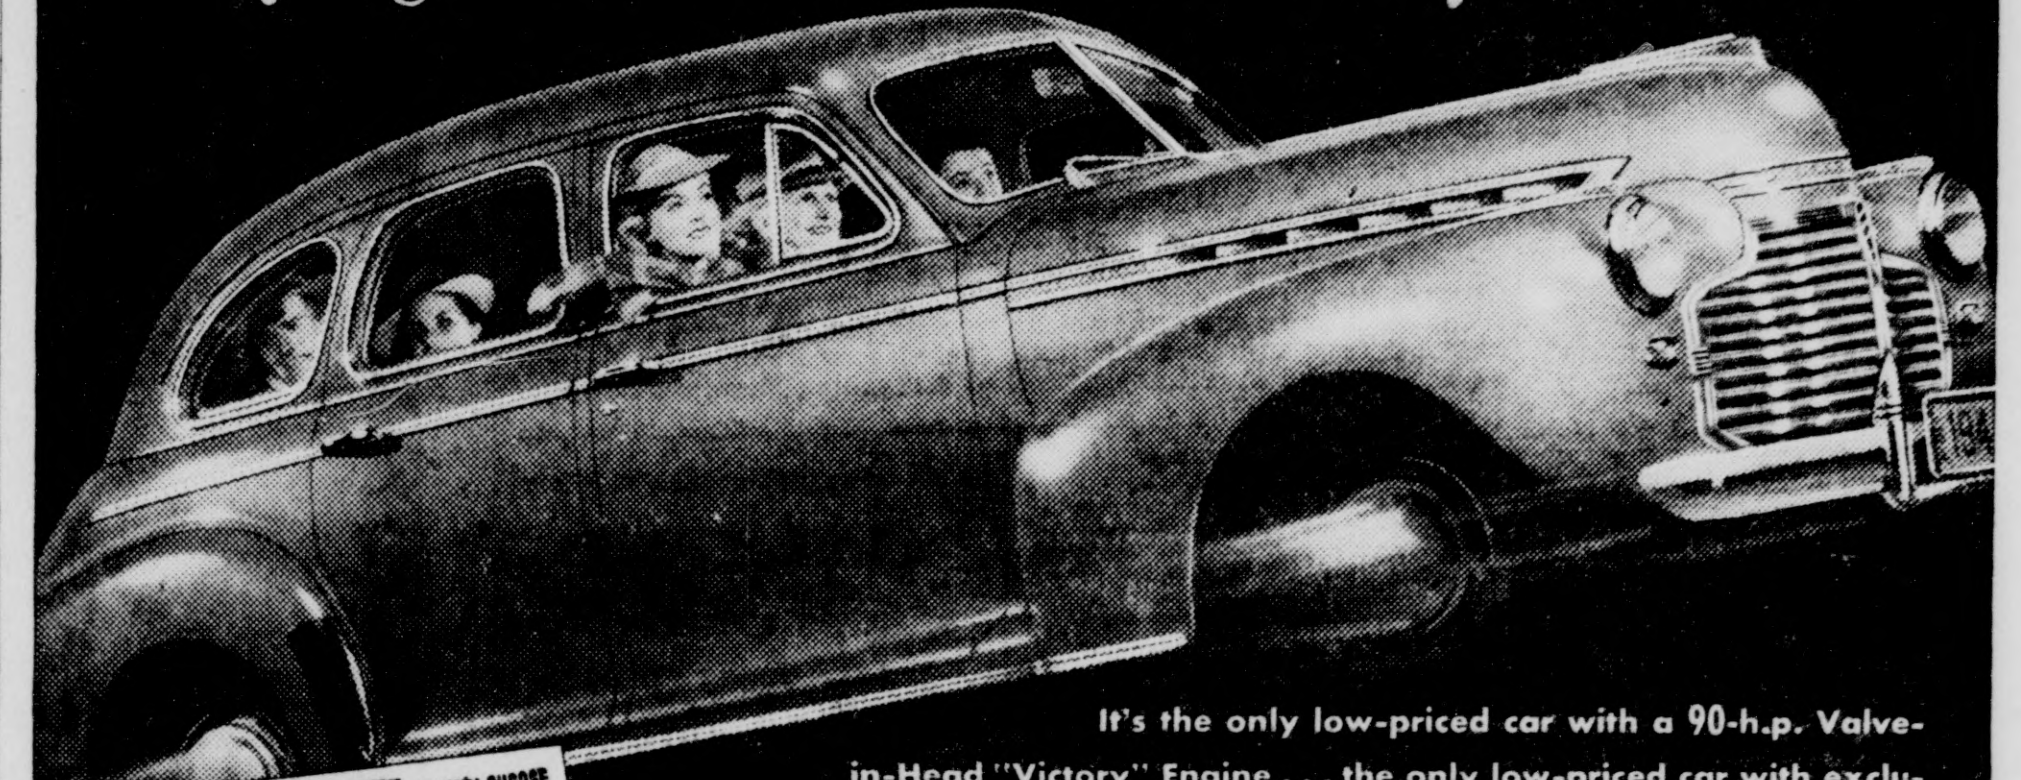

So reason sensibly and take the choice of millions by immediately starting on a course of S.S. Tonic—taken three times a day immediately before meals. In the absence of a focal infection or organic disease, you should note improvement in the way you feel and look within the first 10 days. The confidence of millions over many years is the best testimonial of this product.

An experience with S.S. Tonic will cause you to say to your friends, S.S. made me "feel and look like myself again."

## Former Elks Rulers Gather

Meeting Is Held At Elks Home Last Night — Genkinger Re-Elected

Fifteen former lodge rulers and the present ruler were seated about the dinner table at last night's reunion of the Past Exalted Rulers' association of the New Castle Elks lodge.

Once a year they gather in the Elks home to dine, swap stories of Elksdom today and in their years and then—part of the group at least—preside over a regular meeting of the Elks lodge. The night, to the younger brothers, is always "Past Exalted Rulers' Night."

Louis G. Genkinger was re-elected president of the past rulers once again, while Abe Levine again drew the secretaryship. Jacob Cosel, president emeritus of the association, wired greetings from Washington, D. C., where he is visiting.

At dinner with Genkinger and Levine were the following past rulers: Edward J. Ryan, C. W. Herman Hess, S. J. Kleckner, Walter C. DeArment, Frank L. Clinefelter, George W. Lamoree, Ben S. Agnew, Clark H. Buell, Bertram Davis, Edmund Connelly, Harry G. Harris, Hugh D. Graham and T. Earl Dukes. The present ruler, Wilbert J. Chapman, was also present.

The nine past rulers in regular lodge chairs for the evening, and the chairs they filled, follow:

Exalted ruler, Edward J. Ryan; leading knight, Walter C. DeArment; loyal knight, Hugh D. Graham; lecturing knight, George Lamoree; secretary, Frank Clinefelter; treasurer, Bertram Davis; esquire, Clark H. Buell; chaplain, C. W. Herman Hess, and inner guard, Ben Agnew.

## Report Dutch Vessels Sent To Port In Neutral Harbors

(International News Service) SAN FRANCISCO, Feb. 13.—The Dutch East Indies colonial government has ordered its merchant vessels into neutral harbors in the far Pacific, according to unconfirmed reports reaching Globe wireless in San Francisco today.

Sailing schedules were reported cancelled for the time.

At the same time it was recalled that more than 350 wives and children of army personnel stationed in the Philippines were announced sailing from Manila aboard army transports within ten days. Army authorities disclaimed undue circumstances attended the sailings and labeled them "routine."

**Into Neutral Ports**  
Shanghai, Feb. 13.—Netherlands steamships operating in far eastern waters were ordered into neutral ports today as United States consular officials again circularized all American residents urging them to return home.

The consular advice went out in routine fashion on instructions from Washington. All Americans whose

presence in the Far East is not urgently required were told to take the first available ships home.

Reports from Manila told of instructions flashed from Batavia, Netherlands East Indies, to all ships of the Java Line. One Dutch liner which left Manila for Hong Kong last night returned to port today while another en route to Batavia from Japan was ordered to put into Manila.

A spokesman for the Batavia government in Shanghai said he had no information regarding the order, but the Netherlands consul at Manila admitted he had wirelessed the vessels to put in on instructions from Batavia.

Increasing tension led to a flood of reports in Shanghai. One rumor was that American ships would soon cease to call at Japanese ports as well as Shanghai or Hong Kong, another that vessels of the Canadian Pacific line would be similarly affected.

Meanwhile, two Soviet ships which recently put into Shanghai were in drydock preparatory to evacuating all German residents to Vladivostok.

## LEASE LEND BILL WILL SOON REACH FLOOR OF SENATE

(Continued From Page One)

war But, meantime, the conferees understood the president would insist on Britain clearing the way for the United States to obtain rubber, tin and other supplies controlled by British interests.

The president is understood to have pointed out he could make no definite plans or agreements with Britain until the bill had been approved, hence the desire of the senate administration leaders to push the house-approved measure to passage.

**Seeks To Meet Criticism**  
Seeking to meet criticism of "blank check" powers for the president in the "all out" British aid bill, Democratic leaders had agreed to three important modifications.

They proposed a "flexible ceiling" which prohibits the president from entering contracts involving huge sums without specific authorization, restrictions upon the proposed revolving fund created from repayments, and a revamped amendment permitting congress to withdraw vast power given the president any time it declares the power is not needed for national defense.

"We believe that we have met many objections without injuring the bill," said Barkley. "We expect to take it up for debate on Monday and I hope it will pass by March 1. It will pass by more than a 2 to 1 vote."

The administration poll, one important senate leader said, indicated passage by a vote of 69 to 27.

**Grants Wide Powers**  
The measure, as it goes to the

senate floor, grants these wide powers:

1. Authorizes the president to manufacture defense weapons for foreign nations either in government arsenals or privately owned factories.

2. Transfer existing ships, planes, munitions and other articles on any terms he chooses, after consulting the chief of staff of the army and chief of naval operations, with a limitation of \$1,300,000,000 on transfers.

3. Repair and outfit British or other foreign warships in American navy yards or ports.

4. Communicate defense information to other nations.

Foes of the measure, led by Sen. Wheeler (D) Mont., planned a last-ditch battle against the bill on the ground that it will lead to war. They hoped for a sharp public reaction which would reverse the trend for the bill.

Despite Willkie's dramatic plea for the bill, Democratic leaders cold-shouldered his amendments. Willkie urged that the bill be limited to aid the British empire, China and Greece. Barkley said that "we think it would be unwise to specify countries."

The committee likewise rejected a monetary ceiling, as urged by Willkie, a requirement that Mr. Roosevelt consult leaders in congress and the scope of articles the president can purchase.

## Powers Is Heard By B'nai B'rith

Speaks At Wednesday Meeting On "Lincoln" At Annual Luncheon

The humanness—almost unbelievable humanness—of Abraham Lincoln as a lawyer, master of expression and great president was extolled Wednesday by Attorney John S. Powers in his impressive message on "The Great Emancipator" before members of New Castle Lodge 609 of B'nai B'rith.

Powers was principal speaker at B'nai B'rith's annual Lincoln Day luncheon in the Leslie hotel.

Arranged by Attorney Joseph Solomon, chairman of the Americanism committee of the organization, the tribute eclipsed, in all ways, all past Lincoln Day celebrations of the lodge.

Rabbi Norman H. Diamond of

Temple Israel gave the opening invocation. Powers was introduced by Solomon, who had been presented earlier by the lodge president, Irvin Gorman.

Singing of "America," led by L. J. Miller, brought the program to a close.

Assisting in the day's plans were Dr. Henry Sloan, chairman of the program arrangements and his aides, Dr. Harry I. Botwin and Jack Leiby.

The affair is always one of New Castle's outstanding Lincoln's birthday observances.

## Report Fugitive Held At Rochester

(International News Service) PHILADELPHIA, Feb. 13.—Robert J. Boltz, fugitive Philadelphia investment-counselor who allegedly defrauded some 150 persons of more than \$2,500,000, has been apprehended in Rochester, N. Y., Philadelphia authorities announced today.

The 53-year-old "financial wizard," whose Ponzi-like career reached an end early last October, has waived extradition and two Philadelphia detectives left immediately for the New York city. They will bring him back to face trial of 21 indictments returned against him by a federal grand jury on December 6.

When taken into custody, Boltz was living at the Y. M. C. A. in Rochester, where he had established himself in the insurance business under a fictitious name, police said. He had \$700 in his possession at the time of his arrest.

## AROUND CITY HALL

Uncle Sam has called two city employees to the colors the first having been Capt. Jack Brettell who is now at Camp Aberdeen, Md., and Police Sgt. Dent Shields will depart for a U. S. Naval reserve at Philadelphia Monday. There are half a dozen members of the city police department registered for the draft. Most of them are married.

Three thousand five hundred and forty-two persons have been photographed in the city detective bureau since the detective bureau was organized in the first mayoralty administration of Charles B. Mayne.

With spring just around the corner, Director of Parks Joseph D. Alexander is looking toward the furtherance of this city's natural playground, Cascade Park. There are few parks as beautiful.

Not everything is serious in police business. For instance, when quizzed as to one of the funniest sights he has witnessed at police headquarters, Chief of Detectives Ralph A. Criswell related that, once, a well-known man who had become intoxicated was incarcerated. While in "iron hotel" the man became "monkey-like." He ascended the cell, hand over-hand, then descended head-downward. After the effects of Bacchus had dissipated the man was told of his jungle-like tactics. He scarcely believed he had done as related.

Chief of Police Willis G. McMullen, when asked today, if he receives many anonymous letters replied negatively although he did say that newspaper clippings of criticism of police authorities now and then have been mailed surreptitiously to his office. McMullen might be termed as stern. He has been in the police business for years. He doesn't believe in "sob acts" but can be relied upon to act fairly toward persons brought before him. He insists upon courtesy to an officer in the return for courtesy by the officer.

## School Dentist To Be Employed

School Board Decides To Add  
Dentist To List Of  
School Employees

New Castle schools will return to the plan of a school dentist it was agreed by the school board Wednesday night. After some discussion of the plan the board agreed to provide a full time school dentist for the balance of the school year at the rate of \$200 per month and to provide for a dentist for the entire school year of 1941-42.

The matter was brought to the attention of the board by Director Clyde M. Wittaker. He added that he believed the school children of the city needed the attention of a school dentist and that he hoped it would be possible to provide one. The board agreed that the school dentist plan was a good one and provided the money. No elections of a dentist was had, this will come later.

Mr. Wittaker also brought the matter of the teaching of Demo-

# Canada's Aid To Britain Includes No Lease-Lend Provisions, It Is Found

By WALTER KIERNAN  
International News Service Staff  
Correspondent

MONTREAL, Que., Feb. 13.—The United States, it is found, is near enactment of a lease-lend bill for all-out aid to Britain. Canada, at war, has no such legislation and contemplates none.

C. D. Howe, minister of munitions and supply in Canada's war cabinet explained today in an exclusive interview, that Canada in her own way is doing her share for Britain and that share is naturally more than the United States is doing.

The Massachusetts born civil engineer who is the key man of Canada's war effort asked not to be quoted directly, having a horror of being considered a "propagandizer."

He did confirm the information that Canada in 1940 held contracts from Britain for \$417,000,000 in war material on a mixed basis of cash, credit and repatriation of British holdings in Canada by the Dominion government.

**Goods Paid For**  
At no time has it been suggested that the Dominion should lend, lease or give away war material to Britain. Thus far whatever goods have been delivered have been paid for in one way or another.

The contracts which have come to Canada from Britain include a \$50,000,000 order for twin-engine Avro-Anson bombers, an order for 10 wooden mine-sweepers, 12 metal mine-sweepers, and 16 corvettes, and orders for mark-8 tanks, Bren guns, aircraft, machine and anti-tank guns, and ammunition for them, 25 pound field guns and a wide range of naval guns.

Howe said that the production of explosives in 1941 will closely approach the total output of Canada in the last war and there are 15,000 men in munitions construction alone.

**Canada's Aid**  
The United States, at peace, is proposing to jump its debt limit from 49 billion dollars to 65 billion dollars in anticipation of defense financing. Canada, at war, is financing its war effort through war savings certificates with a \$120,000,000 annual objective.

The certificates are non-taxable, an investment for the 11,000,000

## Large Proportion Of Taxes Collected

Treasurer Reports Only \$78,835 City Tax Outstanding For 1940 In New Castle

City Treasurer C. C. McKibben today stated that uncollected 1940 city taxes amount to \$78,835.58. The city taxes for 1940 amounted to \$345,589.62, of which he has collected \$466,734.04.

The treasurer explained that "on this \$78,835.58 there is now a 6 1/2 per cent penalty and each succeeding month of delinquency means one-half of one per cent penalty."

All uncollected city taxes will be filed with the city solicitor July 1, 1941, the treasurer stated.

Relative to the 1940 school tax, the treasurer asserted there remains unpaid \$110,914.15. The school tax for last year amounted to \$816,180.69, of which \$705,266.54 has been paid.

McKibben declared that final notices have been mailed and that all unpaid 1940 school taxes will be filed with the Lawrence county commissioners May 1. He advised that, in order to avoid extra penalties and costs, the tax should be paid quickly. The existing penalty is six per cent, he stated.

The total assessed valuation of all real estate in the city is \$46,637,730. During 1940 there was \$162,987.60 delinquent taxes collected, together with \$705,266.54 school tax for 1940, which gives the school board a grand total of \$908,254.14.

### PNEUMONIA

An organism called haemolytic streptococcus is the second most common cause of pneumonia. This germ is a chain-like organism and the long name it bears means that it destroys certain cells in the blood. In the past it has had an alarming high fatality rate, because providing good nursing care was about all we knew to do for its victims. If they were strong enough to pull through, they lived; if they weren't, they died. Meantime the doctor stood by more or less helpless.

This is no longer true, fortunately. For we now have a drug to combat these haemolytic streptococci. And what is even better news, other forms of this same drug are being developed to destroy other forms of pneumococcus as well. Sooner or later, I believe, all of the many types of pneumonias will be treated with this drug.

Of course, serums are still being used extensively, particularly in hospitals where experiments are still progressing to determine which is the better treatment. But speaking purely as a country doctor, I see a greater usefulness for the drug because of the difficulties a country

doctor faces in treating a pneumonia patient with serum.

His patient is likely far out in the country, and the first thing he must do is get a sample of the patient's sputum and send this to a laboratory to be typed. Then it may require a day to get the proper serum, and much precious time is lost very often if the serums aren't used within the first few days, they are not effective.

But with both the drug and the serum to help us combat pneumonia, the most important protective measure is still prevention of the disease.

Pneumonia is not just the extension of the common cold into the lungs. Pneumonias are caused by pneumococci, staphylococci, streptococci, and even the virus that causes influenza. Still, I like the statement even if it isn't scientific, for it's basically sound. For if we could keep people from catching cold, pneumonia would become a rare disease.

Every year many babies die of bronchopneumonia, an infection of both lungs, which in the majority of cases begins with a common cold. A great many of these cases could be prevented if all proper measures

were taken to prevent anyone with a cold, whether it be child or adult, coming in contact with a baby.

If there is an epidemic of colds in the household, instead of segregating the sick, segregate the baby instead. In most cases, while the colds are in the house, let the mother, or whoever waits on the child, wear a mask while attending it. This mask should properly cover both the mouth and the nose, and she ought to wash her hands immediately before waiting on the baby.

Be sure to sterilize all eating utensils. All handkerchiefs used by members of the family ought to be sterilized and not allowed to lie around. Today most people use tissue handkerchiefs that are destroyed as soon as they are used. I'm all for them.

Finally, if your precautions fail,

and the baby gets sick, call your doctor immediately. Practically all the respiratory infections in babies begin with a fever, so don't just console yourself with the thought that the baby's temperature is a touch of cold, for it might well be pneumonia.

Tomorrow—Oxygen and Pneumonia.

## Jesus Teaches Forgiveness And Gratitude

Highlights On The Sunday School Lesson

### The Golden Text

Jesus healing the ten lepers

"Be ye kind one to another, tenderhearted, forgiving each other, even as God also in Christ forgave you."—Ephesians 4:32.

By NEWMAN CAMPBELL  
(The International Uniform Lesson on the above topic for Feb. 16 is Luke 17, the Golden Text being Ephesians 4:32. "Be ye kind one to another, tenderhearted, forgiving each other, even as God also in Christ forgave you.")

FORGIVENESS and gratitude—they are two often neglected virtues, but which our Lord Jesus thought important enough to make prominent in His teachings.

The chapter commences by Jesus saying that "It is impossible, but that offences will come: but woe unto him through whom they come!"

In other words, those who tempt others to do wrong, are worse than the wrongdoers. Woe to them! They will surely suffer for making others to stumble. We all know how hard it is to resist temptation when a dear friend asks us to do something we know is wrong. That is one lesson for us to learn, and learn well—never

tempt others to do what we know would be wrong for them to do.

The lesson of forgiveness Jesus illustrates by saying that if a brother—by which he means any friend or acquaintance—offends or trespasses against us, we may rebuke him, not because of our feelings, but because it is proper that he should be shown where he is in the wrong. If such a person should repent and say he is sorry, we should immediately say we forgive him; yea, even if he transgresses seven times, but each time he says he is sorry, we should forgive him. And if we forgive, it should not be a lip forgiveness, while we cherish dislike and resentment. True forgiveness means we will forget the incident as well as say we forgive.

#### Increase Our Faith

"Lord, increase our faith," the apostles asked their Master. Jesus asked them how they would act if a servant came from working in the fields. Would they tell him to go and eat, or would they not rather tell him to serve them and, after they had eaten, the servant would have his meal?

The servant was paid to serve the master, and he should not, therefore, take any credit to himself for his service. Likewise, when the apostles did their duty to God, they should not take credit for that, but should think of themselves as only doing their duty. "We are unprofitable servants; we have done that which was our duty to do."

Jesus was on His way to Jerusalem, and as He entered a certain village, there met Him ten men who were lepers. They cried to Him, "Jesus, Master, have mercy upon us." "Go shew yourselves to the priests," Jesus answered, and as they obeyed Him, they were made clean. Did all thank Him and glorify God? No, only one of the ten. He came back to Jesus and with a loud voice, glorified God, falling on his face at His feet—and he was a Samaritan. "Were there not ten cleansed?" asked Jesus. "Where are the other nine?" And to the man He said, "Go thy way, thy faith hath made thee whole."

How many people have been hurt by those whom they have helped in time of need. Gratitude implies that we are under obligation to someone, of course, but surely, when we have had kindnesses shown to us, it is not only right, but a privilege, to keep it in mind and show that we are grateful.

The Pharisees demanded to know when they might expect the kingdom of God to come. They were not looking for a spiritual kingdom, but one in which the Jews should be liberated from the yoke of the Romans and should set up their own kingdom with a Messiah as king. The kingdom of God, said Jesus, is not here nor there, for "behold, the kingdom of God is within you."

Those Pharisees had the kingdom of God right with them, if they had but known. But they were blinded by the things of the earth. They could not see the truth and so they lost their opportunity.

Turning to His disciples He told them that before the kingdom of God could come, His Son must "suffer many things, and be rejected of this generation." As it was in the days of Noah. People went about their business of living—they did eat, they drank, they married wives, they were given in marriage, until the day that Noah entered the ark, and the flood came, and destroyed them all.

It was the same in the days of Lot. When he went out of Sodom, the city was destroyed. The things of the world absorbed them, and they could not see the spiritual truths that would have saved them. "Whosoever shall seek to save his life shall lose it; and whosoever shall lose his life shall preserve it."

The Lord expects His followers to be "kind to one another, tenderhearted, forgiving each other, even as God also in Christ forgave you." Then indeed, the Kingdom of God will be within us, and we need "fear no evil."

## Tax Program Delay Forecast

Democrats Hold Up Action  
On Administration Tax  
Program

### EMERGENCY BILLS ARE RECOMMITTED

By RAYMOND WILCOVE  
International News Service Staff  
Correspondent

HARRISBURG, Feb. 13.—A delay of a month or more in the enactment of the James administration's tax program was forecast today in a surprise move by Democratic legislators.

The administration's \$184,000,000 special emergency tax program will not be passed and sent to the senate for final enactment until a thorough study has been made of the government's budget, Majority House Leader Leo A. Achteman, Monroe, stated.

"That will require at least a month's time, probably more," he added. Pending that, all other tax bills as well will be held up, he said.

Overriding the objections of surprised Republican assemblymen, the Democratic majority recommitted the eight emergency tax bills to the house ways and means committee after giving them second reading. An attempt by the Republicans to amend the cigarette act to exempt from the state tax cigarettes sold at army posts was defeated, but will probably be written into the measure later. A Republican attempt to reduce the state personal property tax from four to three mills was also defeated "pending further study."

Achteman's announcement that the emergency tax bills would not be immediately passed came as a complete surprise to most house members. The general expectation had earlier been that the measures would pass without delay and probably be forwarded to the senate next Monday.

No delay was offered, however, to the administration's \$14,500,000 deficiency relief appropriation to replenish the dwindling relief treasury until June 1, when the new fiscal year opens. The measure was given second reading at yesterday's session with indications that it will be forwarded to the senate next Monday for final enactment.

## Dutch Merchant Vessel Is Ordered To Return To Port

(International News Service)

MANILLA, Feb. 13.—A Dutch merchant vessel, leaving Manila for Shanghai this morning was abruptly ordered to return to the Dutch East Indies by way of Batavia after it was 24 miles at sea, it was reported authoritatively in Manila today.

The vessel's captain radioed he was standing by for further orders. The Dutch ship was identified as the S. S. Tjiljenkika.

The orders were presumably issued by the Netherlands East Indies government.

Similarly, the Dutch merchant vessel Kiplfontein, three days out of Manila for San Francisco, was believed ordered to take refuge in a British or American port.

The Dutch consul in Manila refused to comment on the orders, but it was believed the precautionary step applies to all Dutch ships in the far east.

There was many a sheepish grin on the Princeton university campus today. And the subject of electric bills was taboo.

It all resulted from the prank of eight imaginative students. They pooled their resources and printed several hundred bills entitled "University Power Plant." They then proceeded to bill students for electricity used in their rooms.

Of course, the university supplies this at no charge whatever.

Nevertheless, some 700 students rushed pell mell to the treasurer's office and plumped down sums ranging from 15 cents to \$65, the amounts carried on the bills.

And Princeton is supposed to have some of the shrewdest and sharpest collegiate minds on its rolls.

## Seek Authority For Private Clubs In Dry Territory

(International News Service)

HARRISBURG, Feb. 13.—The general assembly has been asked to permit private clubs to sell liquor in dry areas of the state.

Rep. Harry P. O'Neill, Scranton Democrat, introduced a measure in the house to amend the liquor laws to permit clubs to operate regardless of how a community may vote on local option.

The law as it now stands permits the sale of liquor in dry areas only through state stores.

The O'Neill measure is another in a series of bills introduced to extend the privileges already held by private clubs. Another bill would exempt clubs from the quota law, thus permitting new clubs to open in areas which already contain their legal limit of one license per thousand population.

The state liquor control board is opposed to the extension of club privileges and advocates the abolition of "one-man" clubs and the reduction in the number of other private clubs.

Rep. Thomas J. Heatherington, (D) Allegheny, sponsored a bill authorizing the liquor board to grant limited beer licenses to religious, charitable, fraternal, military and patriotic organizations. The licenses would be good for only one calendar year, not including Sunday, with a limit of three such licenses per year to one organization.

No licenses would be permitted in dry areas. A \$250 fine and \$100 bond would be required. Violation of a license would be punishable by from \$100 to \$300 fine and forfeiture of bond.

## Selected Men Given Warning

Unnecessary Clothing  
When Being Inducted

### RECEIVE AMPLE SUPPLY AT CAMP

Information has been received in a memorandum from William M. Lewis, director of Selective Service for the State of Pennsylvania by Local Board No. 2, for the city of New Castle, stating that men who are selected for induction for service should not take unnecessary supplies with them when they are inducted.

Instances have been found in the past where men have been taken along a large volume of unnecessary clothing, only to be faced with the necessity of arranging for its return to their homes later.

In this connection, Lewis states the following communication has been received from Headquarters Third Corps Area, U. S. Army:

"So far as the Army is concerned, the only clothing a selectee needs is the outer clothing he wears, and a change of underwear and socks; small supply of handkerchiefs, and of course toilet articles; all of which can be carried in one small hand-bag. Everything else that the selectee requires will be issued within a period of three days."

A list of clothing and equipment issued to selectees immediately on arrival at reception centers, includes the following:

One belt, field cap, woolen coat, denim working coat, three pairs drawers, one pair woolen gloves, four handkerchiefs, one denim working hat, collar insignia, pair leggings black necktie, khaki necktie, woolen overcoat, three pair socks, one pair trousers, one pair working trousers, three undershirts, one barrack bag, one canteen cover, one fork, knife, spoon, haversack, tape for identification tags, toilet set, raincoat, two shirts, pair service shoes, bath towel, two huck towels.

## INCOME TAX IN A NUTSHELL

### CAPITAL GAINS AND LOSSES

The term "capital assets" is defined as the property held by the taxpayer (whether or not connected with his trade or business), but does not include stock in trade of the taxpayer or property of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the taxable year, or property held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business, or property, used in the trade or business, of a character which is subject to the allowance for depreciation.

Capital gains and losses are classified as "short-term" (applicable to capital assets held for 18 months or less) and "long-term" (applicable to capital assets held for more than 18 months). Such gains and losses are taken into consideration in the percentages shown on the return, based upon the period of time during which the assets were held.

Short-term capital losses are allowable only to the extent of short-term capital gains. However, any net short-term capital loss (not in

excess of the net income for the taxable year) may be carried over to the succeeding year and applied against the short-term capital gains not already offset by short-term capital losses in such year. The carry-over is restricted to one year.

In the case of a net long-term capital gain or loss, an alternative tax is imposed with respect to a gain if such tax is less than the normal tax and surtax on net income, and in the event of a loss, such alternative tax is imposed if greater than the normal tax and surtax on net income. Where a taxpayer derives a net long-term capital gain and computes his tax under section 117 (c) (1), relating to alternative taxes, the base for determining the 15-percent limitation on the charitable contributions deduction provided by section 23 (d) and the earned income credit provided by section 25 (a) (3) is "net income."

Where a taxpayer sustains a net long-term capital loss and computes his tax under section 117 (c) (2), the base for determining the charitable contributions deduction is "ordinary net income," that is "net income" plus the amount of the net long-term capital loss, and the base for determining the earned income credit is "ordinary net income" as adjusted for the charitable contributions deduction.

HUNTINGDON, Pa., Feb. 13.—Westminster college basketball team ended a three-game eastern invasion here last night by handing the Juniata college boys a wallop to the tune of 54 to 25.

Charley Ridgely and Lee Fox paced the towering Titans to their splendid victory with a dozen points apiece. The victory was the 13th for the Titans in the last 14 starts.

### Grab Big Lead

The Westminster team began scoring early in the game and at the halftime mark led 30 to 10, mainly through the fine work of Ridgely and Fox. Spak, Wask and Dunmire also did some nice work in the Titan triumph.

Leopold was the best bet in the Juniata lineup with eight of the points made by his team.

Juniata will play the Westminster team again this coming Saturday night at the Westminster floor.

### Section 20 Teams Near Finish Line

New Wilmington Five At Union Township; Wampum-Mt. Jackson Clash

Section 20 teams dribble within the shadows of the finish line Friday night.

The stretch drive is a genuine photo-finish affair. The championship may not be decided until the final round, slated for next Tuesday. A deadlock for the top pillar is a strong possibility, that's how close the race is.

New Wilmington faces Union in the first of two remaining conflicts on the college towers' card. The game is billed for Union floor. While Union has already been rubbed out of the championship picture, the Scotland Lane entry can further perplex the situation by bowling over the "Greyhounds." A triumph over Union and another win over Mt. Jackson, Tuesday, can assure the New Wilmington club of at least a tie.

The "Greyhounds," fighting boldly to top their third consecutive Section 20 title, have been hampered by a series of tough breaks throughout the season. The most serious blow being the loss of Paul Munner. The clash tomorrow night should attract a large crowd.

Wampum's Indians lineup for their second clash against Mt. Jackson in three nights, facing the Mounties on Mt. Jackson floor. The Mounties can remain in the fight by whipping the sturdy Wampum passers. Wampum can't afford to lose either.

Besemer's battle at Shenango Township completes the bill of fare. Both quintets dropped decisions last Tuesday night, lessening their chances of winning the sectional diadem.

### NEW SOX STAR

SWITCH HITTER  
Thurman Tucker, young outfield star purchased by the Chicago White Sox from Oklahoma City, is a switch hitter (bat from either side of plate).  
Before Oklahoma City grabbed him, Tucker hit at a 390 clip in the Cotton State league.

PEARSON GAMES  
John Pace set up a new scoring mark in the Pearson Street Boys' League Wednesday night, potting 26 points.

Wisconsin managed to spill Northwestern, 21-17, to grab second round honors; Purdue upset Ohio State, 35-18, and Michigan walloped Minnesota, 34-26. Campbell, McCaskery and Jenkins were other high scorers. Tex Richards officiated.

### Wampum Nips Jackson Five

Indians Cop 35-34 Decision; Outcome Deadlocks Section 20 Lead

Wampum and New Wilmington high share the Section 20 leadership.

In the most exciting loop fray of the season, Wampum's game engineers a last period "blitz" to sidetrack Mt. Jackson, 35-34, Wednesday night in Ellwood City, thus putting the Indians along side of New Wilmington.

The capacity gallery which filed into Shelby auditorium was rewarded with a game studded with thrills from start to finish. The battle saw Wampum take the play away from the Mounties in the opening half. The Jackson flippers, however, scored 28 markers in the third clash to take a 10 point lead. Then came Wampum's gallant rally.

Wampum moved ahead 8-1 in the first chapter and increased the margin, 14-7, as intermission time arrived. With Pete Razzano starring a one man show, Mt. Jackson potted 28 points in the third to force ahead 28-18.

With six minutes left, Wampum trailed, 30-24. Wilson, who was injected into the Wampum lineup, swished a double player. P. Razzano converted a charity toss to give Jackson a 31-26 edge. Craine, of Wampum, was fouled while caging an important bucket and annexed the free throw.

Hervatine's sizzler from near the foul mark narrowed the gap, 32-30, with a minute to go. Bennett reentered the game and knotted the count. Frank's field goal and Hervatine's foul gave Wampum a 33-32 edge. Bader counted the Mounties' last two points as the sound of the gun went off.

Pete Razzano put on the best one man show of the season, firing 26 points, a record for the 1940-41 stretch. For Wampum, Archie Frank and Hervatine sparkplugged the attack. Coy Craine played his customary good game, contributing seven points.

Wampum and Mt. Jackson clash again on Friday night on the Jackson floor.

### Mioland Facing Tough Opposition In Porter's Cap

(International News Service)  
SANTA ANITA PARK, Cal., Feb. 13.—It will be Johnny Adams on Porter's Cap and Buddy Haas on Mioland for C. S. Howard's two acts in the \$100,000 Santa Anita handicap on March 1.

This developed today following Porter's Cap's brilliant victory in yesterday's \$50,000 Santa Anita derby.

Porter's Cap seems a cinch to run in the big race and is insurance for Howard in event Mioland falters. He is in the big race at 104 pounds and this is a weight Adams can make.

Mioland must pack 124 pounds in the "hundred grander" and Haas, who scales around 118 (when he's carrying a little surplus flesh) is best suited to the latter.

### HERE AND THERE IN SPORTS' LAND

Johnny Dean who is on Marine recruiting duty is now fighting under the management of Harry Pittler, cousin to Johnny Ray who handles Billy Conn, the marine writes us today. He is scheduled to box in Baltimore, February 20. According to the letter from Pittsburgh, Johnny is permitted to be off duty each afternoon to get in his training whacks. Dean is a stablemate of Pete Spotti, Ossie Harris, Johnny Rucker and others. He wrote that he saw the Bill Boyd-Harry Bobb fight and explained that Boyd is not the fighter that he once was. Further, Art Rooney, Dean said, wants his regards conveyed to the fans of this city.

We've listened to Bart Richards toastmaster at all sort of gatherings but never at a baseball meeting so it was welcome news last night when the officers of the Lawrence County Baseball loop in session in the Sporting Goods store selected Bart, alias Arthur Monstee to handle that post when the baseball players banquet in the Moose banquet hall, Ellwood City, next Wednesday night. Chilly Doyle, Sun-Tele baseball writer and Jack Dunlevy, president of the Butler Yankees will be speakers. Approximately 100 ball players and their friends are expected to attend the event. Plates will go for 85 cents each.

During a recent fanfest, promotions were discussed and the palm went to Bill Jolly who operated the Jolly bowl. No event here in three decades drew as much as the Davies-Wolgast bout, \$5,100, with a profit of \$2,000. In fact, only three pro fights in the bowl drew slightly less than \$1,000, and in those instances, new main-bouters like Joey Goodman, who got a chance to decrown Lightweight Champion Sammy Mandell in Cleveland but faltered in the last two rounds, were introduced. As many as 4,100 paid admissions traveled through the turnstiles in one night at the bowl.

CHANGE IN SCHEDULE  
There has been a change made in the Junior church league card at the "Y" on Saturday, and the game will be as follows: At 4 o'clock the Wesley and First Presbyterians will meet. At 6:15 o'clock the St. Marys team will meet the First Christians, and the other two games will follow in this order: Epworth vs. Third U. P., and First U. P. vs. First Methodists.

A sizzling sport note: . . . Paul "Lefty" Minner, New Wilmington High's basketball-baseball star, who was sidelined by a fractured wrist recently, pulls out in March for Tennessee where he will soon start spring training with the Knoxville club of the Southern Association. This is good news to the sports colony for twas feared that the injury might conclude Minner's pitching career.

Minner junks the east on his pitching arm this week. The bone fracture has healed well. Principal Whitman of New Wilmington told us during a telephone conversation. Minner's pitching ability has caused quite a few scouts to lift their brows. Still in his teens, the 6 foot 5 athlete reports to a club that has turned out numerous present day baseball greats. Minner may be the next satellite to branch out of Knoxville.

Boxing brief: . . . Despite the fact that he hung up the mitts several years ago, Tom Farrow is still quite active along cauliflower land. The colored athlete is endeavoring to build up a few gladiators. Big Tom has set up a big bag and other fistie paraphernalia in a new boy's center started on Grant street. ### Jack Johnson To Tutor Simon

Johnson, Former Champion, Lacks Respect For Louis Ability

By LAWTON CARVER  
International News Service Sports Editor  
NEW YORK, Feb. 13.—James J. Johnston gave the pugilistic archives a quick look today and came up with the remains of a legend called Jack Johnson in a maneuver to deprive Joe Louis of the world heavyweight championship, according to the announced intention. Only Negro besides Louis ever to hold the heavyweight title, Johnson is being engaged to school Abe Simon for his challenge at Detroit on March 21.

Johnson's idea, of course, is to get some ballyhoo for the Detroit fight, and the best way to do it is by engaging Jack Johnson who has been on the outs with Louis and his handlers ever since the latter hit the big time.

Jack Johnson always has insisted that Louis was a second-rater, and has popped off to that effect on the slightest provocation. He now gets his chance to collaborate in the defeat of Louis, except that Johnson Johnston and Simon all put together couldn't whip one side of Louis with his best punch tied to his other side.

This list of eligible candidates, Father Cavanaugh said, will be placed before the Rev. Hugh O'Donnell, president of Notre Dame, who will handle the negotiations.

Father O'Donnell said he expects to announce result of his efforts within a week. There was no indication of how many names were under consideration.

Layden resigned his Notre Dame post to become commissioner of the National Professional Football League.

### Double Technical Knockout Happens In Detroit Ring

(International News Service)  
DETROIT, Feb. 13.—Michigan fight fans today were still talking about the first double technical knockout in the state's boxing history.

The unusual ring drama occurred last night at the naval armory in the eighth round waterweight headliner between Pat Carroll, Detroit, and Sammy Secrest, Pittsburgh. Referee Clarence Rosen declared the double technical in the seventh round when it became apparent that both fighters were suffering tremendously from cuts over their eyes.

## DAILY DOZEN

(From the Medical Society of the State of Pennsylvania)

Morsus humanus is a fairly common injury caused by human teeth. A person may strike his fist against another's teeth. Or he may be actually bitten by another person. In the former case, poison from the mouth enters the hand wound. In the second case, poison from the mouth enters the bite wound. In either case, dangerous germs from unclean mouths start trouble. In many instances, fingers need to be amputated—even death results. Of all bites, that of the human animal is the worst. Bacteria in the mouth may be of a wide variety. Staphylococci, streptococci, fusiform bacilli and others. Any of them are quick to further the damage. The human's mouth offers tops in infection.
